**Spanish**: Native
**English**: Advanced

# PROFESIONAL EXPERIENCE

**FullStack Developer** - Fresh Consulting - San Jose, San Pedro 09/2021 - 02/2024
During my time at Fresh Consulting, I worked on five main projects (Madera Quext, Digital Human, Starlight Solutions, Bike to Work Day and Morpho web/app):
In these projects I was able to function as a full-stack programmer thanks to the fact that I always had camaraderie with my team, I was constantly learning and they were projects with excellent presentation and impeccable delivery.

I demonstrated both technical and project management skills, contributing to the overall success of the initiatives. These experiencesprovided me with a deep understanding of web development, the implementation of modern technologies, and the significance of communityevents in promoting positive changes in urban

**FullStack Developer** - BlockMatic - San José, San Jose 09/2020 - 01/2022
In this job, I worked on one main project (GeekList):
The company gave me the opportunity to grow and take my first steps as a programmer, my first project was internal as a front end, then within the GeekList project my coworker showed me different repositories of the project in which he was helping me grow as a programmer.

## Project Experience

### Bike to Work Day
*Bike to Work Day is a free, fun annual event focused on encouraging people to try out commuting by bike*
*technologies: React, NodeJS, NestJs, MySQL, Mapbox. Here*

### Quext Websites
*Website in charge of helping apartment owners and operators, in the sale or rental of their apartments. In it, the owners could create their own network and through widgets they could create a website with the information of their condominium, residence or apartment*
*technologies: Vue, PHP 5.x-7.x, Laravel, AWS, Jenkins. Here*

### Digital Human IA Integration
*Integration of an AI system for personalized tours and hotel or condominium reservations within the Quext platform.*
*This enhanced user engagement and streamlined the booking process, elevating the overall user experience.*
*technologies: Vue, NodeJS, ExpressJS, AWS, Jenkins Here.*

### Geeklist Website Beta
*Geeklist is a social platform for developers to highlight their achievements, share resources and collaborate, your status can be sold as an NFT.*
*technologies: React, NodeJS, NestJS. Here*

### Starlight Solutions
*Starlight offers solutions specific to key business lines in waste and recycling: roll-off, commercial, residential, portable toilet, facility management and recycling.*
*technologies: React, NodeJS, Docker, Postgres, QuickBooks.Here*
